SUMMARY

Full Stack Engineer with 4+ years of experience building scalable SaaS applications, AI-powered automation systems, and enterprise financial technology solutions. Experienced in React.js, Node.js, Python, RAG architectures, LLM integrations, and microservices. Proven track record delivering AI-driven products that reduced manual operations by up to 80% while improving performance, scalability, and user productivity.

EXPERIENCE

SDE-2

Autonomix Solutions Inc

March 2026 - Present

- Built AI-powered SDR workflows using **OpenRouter, Node.js, and React**, automating lead qualification, email generation, and campaign scheduling across the sales pipeline.
- Architected multi-agent OpenRouter workflows for lead qualification and email sequencing, cutting SDR manual touchpoints by 60% across the sales pipeline.
- Developed analytics dashboards and backend APIs enabling real-time campaign tracking, lead monitoring, and sales performance reporting.

Lead Software Engineer

Ez-XBRL Solutions

October 2022 - February 2026

- Built production RAG pipelines using multilingual embeddings and LLMs to automate XBRL tag recommendations across regulated financial filings, cutting manual tagging by 70% across 500+ filings per quarter.
- Led a team of 6 engineers delivering AI-powered financial automation features across multiple releases.
- Drove product roadmap planning with compliance and product stakeholders, prioritizing 3 AI feature releases that shipped on schedule across 2 consecutive quarters.
- Architected and deployed scalable microservices (Node.js, Redis, Socket) improving API response times by 30% and maintaining uptime.
- Developed Financial Disclosure Compare, using custom NLP library to detect structural and content changes in large HTML docs, cutting review time by 50%.

Software Engineer

Tidalwave Technology Pvt Ltd.

August 2021 - July 2022

- Built scalable full-stack applications using **Node.js, React.js, Redux, and PostgreSQL**, improving database query performance by 35%.
 - Integrated third-party APIs with **99% uptime** and mentored junior developers to accelerate onboarding and delivery.
-

PROJECT

Financial tag suggestions

Ez-xbri Solutions • February 2025 - April 2025

- Built a **RAG-based multilingual AI system** using **React, Node.js, Python, LLMs, and embedding models** to recommend contextual XBRL tags for financial disclosures.
- Integrated **LLMs and multilingual embeddings** to surface peer-aligned disclosures and deliver high-accuracy tag recommendations, reducing manual research effort by 80%.
- Developed an **auto-apply tagging workflow** that improved tagging efficiency, consistency, and user productivity across financial filings.

AI-SDR

Autonomix Solutions Inc • March 2026 - June 2026

- Developed an **AI-powered Sales Development Representative (AISDR) platform** using **React.js, Node.js, OpenRouter, and LLMs** to automate lead qualification, outreach, and sales workflows.
- Build **agentic AI workflows and automation pipelines** for email campaign generation, prospect engagement, and lead management, reducing manual sales operations.
- Implemented **real-time dashboards, analytics, and third-party integrations** for lead tracking, campaign monitoring, and sales performance insights.

Multilingual Overlay

Ez-xbrl Solutions • May 2025 - November 2025

- Developed a multilingual financial tagging solution using **React, Node.js, Python, and embedding models**, reducing manual tagging effort by **70%**.
- Implemented semantic and structural cross-language mapping to enable accurate, scalable tag transfer across multilingual financial disclosures.

SKILLS

Language: JavaScript, TypeScript, Python, SQL, HTML, CSS

Frameworks & Tools: ReactJs, Next.js, Node.js, Express, Angular, Git, Redis, Socket.io, Docker, MongoDB

AI & NLP: Retrieval-Augmented Generation (RAG), Large Language Models (LLMs), Embeddings, Vector Databases

Other : AWS, Agile/Scrum, API Security, Load Balancing

EDUCATION

Bachelor of Engineering in Computer Science

Kalsekar Technical Campus • Panvel, Navi Mumbai. • 2021
